

GET & GO MERCHANDISER

MOBILE FOCAL POINT

The adaptable, mobile Get & Go Merchandiser can be moved within the store or expanded in order to provide an attractive platform for your store's changing promotional plans. The merchandisers can be used individually, or two units can be linked together for greater impact and display space. Ideally suited for seasonal promotions, this system will focus customer attention on your high-margin cross sells. Its easy mobility to strategic locations in the store makes it convenient for customers to simply "get and go."

FEATURES

- Versatile merchandising options.
- Link two together for an effective feature endcap or place back to back for a walk-around display.
- Count on reliable, efficient performance via durable steel design.
- Choose from an array of color and finish options.
- Back extension raises merchandising height to 54"
- Slotted back panel for peg-hook merchandising.
- Four adjustable shelves with clear front rails and 30 peg hooks.
- Heavy-duty casters for easy positioning.
